Peter Wright
Director
Australian Consulting Pty Ltd
Level 4 310 King St.
Melbourne VIC 3000

Dear Peter,

As our two organisations have been working together for the past twelve months, I felt it appropriate to provide some feedback on the range of services you have been providing to our members.

Through our relationship with Australian Consulting we have been able to offer our members a range of financial services and benefits. With a large member base covering Victoria, this relationship has given our members access to a range of specialist advice. An added benefit of your service has been the ability of your consultants to meet with members in the comfort of their own home.

We have found your consultants to be both professional and courteous, with feedback from members being more than positive.

With many members having superannuation concerns, this access to financial planning services has been invaluable.

I would like to extend my thanks and appreciation for the assistance that Australian Consulting has provided to many ambulance union members as well as saying *keep up the good work!*

Many Thanks

Steve McGhie
General Secretary
